

# AEROGEN PRODUCT GUIDE

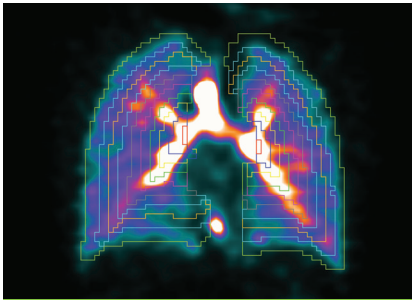

**Aerogen**<sup>®</sup>  
Pioneering Aerosol Drug Delivery

# / Aerogen® Ultra

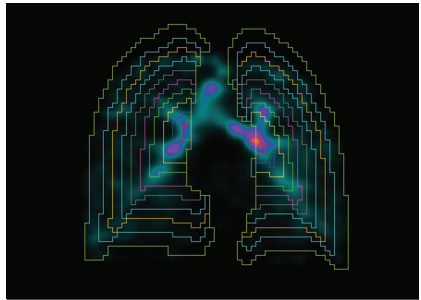

- Delivers significantly more medication in half the time<sup>1</sup>
- Improves patient response to treatment<sup>2</sup>
- Works with and without O<sub>2</sub><sup>3</sup>
- Can be used with either a mask or mouthpiece<sup>3</sup>

## Aerogen Ultra delivers 6X greater lung dose\*

Aerogen Ultra

Jet nebuliser

**Lung dose delivered:** Aerogen Ultra 34.1%; jet nebuliser 5.2% (p<0.001)

**Residual dose volume:** Aerogen Ultra 2.4%; jet nebuliser 62.8% (p=0.008)

Nebulisers were filled with diethylenetriaminepentaacetic acid labelled with technetium-99 m (99mTc-DTPA, 2 mCi/4 mL) Dugernier J. et al 2017<sup>4</sup>

\*Aerogen Ultra compared to a standard jet nebuliser.

## SUPERIOR PATIENT CARE WITH AEROGEN ULTRA

In a comparison study with a jet nebuliser, Aerogen Ultra resulted in:

**32%**

reduction in admission rates<sup>5</sup>

**85%**

of patients achieving symptom control with one 2.5mg salbutamol dose<sup>5</sup>

**37<sub>min</sub>**

median reduction in ED length of stay<sup>5</sup>

# / Aerogen® Solo

- Quick and easy to set up<sup>1</sup>
- Virtually silent<sup>2</sup>
- Single patient use<sup>1</sup>

## Aerogen Solo achieves superior drug delivery\*

## CONFIDENCE AND CONSISTENCY OF PATIENT CARE

- ✓ Refill medication without breaking the circuit<sup>1</sup>
- ✓ Can be used with all medications for inhalation\*
- ✓ No heating or degradation of medication<sup>1</sup>
- ✓ Minimal residual volume (<0.1ml for 3ml dose)<sup>1</sup>
- ✓ High speed of delivery<sup>5</sup>
- ✓ Does not affect ventilator parameters<sup>1</sup>
- ✓ Suitable for solutions, suspensions, proteins & peptides<sup>6</sup>
- ✓ Can be placed at the wye or at the humidifier<sup>1</sup>

\*which are approved for use with a general purpose nebuliser<sup>1</sup>

# Continuum of Care

Aerogen can be used across all modalities for ventilated and non-ventilated patients

Neonate

Paediatric

Adult

## AEROGEN CONTINUOUS NEBULISATION TUBE SET

---

- ✓ Works with standard syringe pumps<sup>1</sup>
- ✓ Non-standard luer connectors eliminate the risk of misconnection<sup>1</sup>
- ✓ Precise volumetric dosing for reliable, controlled aerosol delivery<sup>1</sup>
- ✓ Drop-by-drop continuous nebulisation.<sup>1</sup>

## AEROGEN POWER SOURCES

---

### / Aerogen Pro-X Controller

- ✓ 30-minute and continuous mode options<sup>1</sup>
- ✓ 45-minute battery life for patient transfer within the hospital<sup>1</sup>

### / Aerogen USB Controller

- ✓ 30-minute and 6-hour mode options while connected<sup>2</sup>

# High performance aerosol drug delivery

At the heart of every Aerogen device is our unique **palladium vibrating mesh technology**.

Aerogen vibrating mesh technology comprises a unique dome-shaped aperture plate perforated with **over 1,000 precision formed tapered holes**.

When energy is applied, the aperture plate vibrates at **128,000 times a second** producing a low-velocity, fine particle, nebulised mist of consistently sized droplets (1-5 $\mu$ m)<sup>1</sup> to achieve superior lung deposition of medication.<sup>2, 3</sup>
